

## Summary of Regulation Revisions:

- Section 7 - Stormwater Regulations under the North Andover Wetlands Bylaw were made consistent with the Regulations promulgated under the Stormwater Bylaw: [http://www.northandoverma.gov/Pages/NAndoverMA\\_planning/StormwaterManagementRegs.pdf](http://www.northandoverma.gov/Pages/NAndoverMA_planning/StormwaterManagementRegs.pdf) . The North Andover Stormwater Management and Erosion Control Regulations were adopted 2/15/11.
- References to the Massachusetts Wetland Protection Act Regulations were also updated so that the most current regulations and amendments are cited in the local regulations.
- Stormwater management structures are allowed within the regulated No-Build Zone “when no other feasible location exists or when it is necessary to maintain the hydrology of the resource. An alternatives analysis showing the net benefit of locating the structures in the No-Build Zone is required.”
- Several additions were made under plan requirements.
- Please see the full regulations under “Permits & Applications” on the Conservation Department home page: [http://www.northandoverma.gov/Pages/NAndoverMA\\_Conservation/permits](http://www.northandoverma.gov/Pages/NAndoverMA_Conservation/permits)
