

“More cyclists and walkers benefit the city; it becomes not merely an urban area, an impersonal congregation of infrastructure...but an attractive, healthy, and social place which supports and improves the quality of life.”

- Jan Gehl, World-Renowned Architect

Bicycle and Pedestrian Facilities Improvement Meeting

April 30th, 2012 7:00pm
Town Hall
2nd Floor Meeting Room

Please join us in a discussion of potential bicycling and pedestrian infrastructure improvements for the Town of North Andover. Topics to include: an overview of the benefits of increased bicycle/pedestrian infrastructure, current conditions in town, potential design concepts, and community survey results.
